Experience

Trainee Software Engineer April 2026 – Present
National Polymer Group *Dhaka, Bangladesh*

- Conducted exploratory testing on the in-house ERP system prior to release, identifying, documenting, and reporting **5+ defects** to the development team.
- Designed and implemented **8+ features** across sales and office applications and performed integration, regression, and ad-hoc testing, identifying **20+ defects**.
- Conducted functional and non-functional testing of the company's primary website and backend systems, identifying and reporting **10+ defects**, including a critical authentication vulnerability.

Education

Bachelor of Science in Computer Science Jan. 2022 – Jan. 2026
BRAC University *Dhaka, Bangladesh*

- CGPA: **3.74**/4.00 (High Distinction)
- Awarded Vice Chancellor's List, Dean's List, and Merit Scholarship across **6 of 12 semesters**.
- Relevant Coursework: DBMS, System Design, Machine Learning, Cloud Computing, Networking, Web Development

Projects

Should I Retake (Academic Analytics Platform) 2025
JavaScript, PDF.js, SheetJS Live | Code

- Built a zero-backend, privacy-first CGPA planner that parses official grade sheets in-browser, so no student data leaves the device; deployed on GitHub Pages, serving **10,000+ monthly users** at zero infrastructure cost.
- Performed manual testing of parsing logic across diverse grade sheet formats, malformed inputs, and edge cases.
- Conducted cross-browser and cross-device compatibility testing across screen sizes and hardware configurations, validating UI responsiveness and client-side calculation accuracy.

ShikkhaDwar (Learning Management System) 2025
Flask, SQLAlchemy, PostgreSQL Live | Code

- Developed a role-based LMS with backend APIs for course management, student enrollment, and instructor workflows.
- Manually tested the auto-grading quiz engine against diverse answer combinations to verify scoring accuracy.
- Performed functional, non-functional, and regression testing across LMS modules to identify defects and ensure existing functionality remained intact after new releases.

Dhikr (Tasbih Counter App) 2026
Kotlin, Jetpack Compose, Room, JUnit, Espresso, Macrobenchmark Download | Code

- Built and shipped an offline-first Android tasbih counter (Room, DataStore) with routines, analytics, widgets, reminders, and optional Google Drive sync, using **AI-assisted workflows (Claude Code)** while owning architecture and review.
- Authored **40+ unit tests** (JUnit) and instrumented UI tests (Espresso/Compose) covering counter logic, backup/restore and database migrations edge cases.

Easy Docker Installation (Automated Script) 2024
Bash, Linux Code

- Built a one-command installer that detects the Linux distribution and runs the setup script, supporting **8 Linux distros**.
- Validated script reliability across multiple VM instances and installation scenarios, eliminating manual troubleshooting steps required in prior manual setups.

Open Source and Problem Solving

Open Source
tldr-pages, OpenTelemetry – Maintainer

- Contributed **50+ merged pull requests** to tldr-pages and OpenTelemetry, improving Bangla documentation accessibility and validating contributions through automated testing and linting (markdownlint, tldr-lint, pytest, and shellcheck).

Problem Solving

- Solved **150+** problems on LeetCode & HackerRank, covering SQL, DSA, DP, and graph algorithms.

Technical Skills

Testing: Manual testing, test case design, defect reporting, regression testing | **Exposure to:** Selenium, k6, Postman
Languages: Python, Java, JavaScript, Bash | **Databases:** Oracle, PostgreSQL, MySQL
Frameworks: React, Spring Boot, Laravel, Flask
Tools: Git, GitHub Actions, Docker, Postman, Jira, Swagger | **Systems:** Linux (CLI, Bash scripting)

Certifications

Google Cybersecurity Professional Certificate (2023) — Covers threat detection, Linux security, SQL, and incident response.
GitHub Foundations Certification (2024) — Validates Git workflows, collaboration, and repository management.
Postman API Fundamentals Student Expert (2025) — Demonstrates API design, testing, and automation skills.
